

New SARS-CoV-2 (Serology) Sample – Order Now!

LGC now offers proficiency testing (PT) samples for the detection of SARS-CoV-2 (COVID-19) antibodies by serological testing. Samples are non-infectious plasma samples for serological screening for the detection of SARS-CoV-2 (COVID-19) antibodies including SARS-CoV-2 IgA, SARS-CoV-2 IgG, SARS-CoV-2 IgM, SARS-CoV-2 Total Ab.

As increasing numbers of serological methods are being made available in the next stage of the global fight against COVID-19, it is essential that laboratories ensure that their application of methods and subsequent results are reliable and accurate using external quality assurance tools including PT.

Secure your testing - Order now as demand is high – first despatch is on 20th July 2020.

SARS-CoV-2 (serology)

Program Description

3 x 0.75 ml human non-infectious plasma samples for serological screening for the detection of SARS-CoV-2 (COVID-19) antibodies.

Program/ Analyte Information

SARS-CoV-2 IgA, SARS-CoV-2 IgG, SARS-CoV-2 IgM, SARS-CoV-2_total Ab

Despatch Dates 2020

20th July, 26th October
